

MSS LOGI-MAN™ • GLOBAL LOGISTICS PLATFORM

One Platform. Full Logistics Lifecycle.

Order, warehouse, transport, travel and translation in one secure, serverless platform. It was DTRA's first cloud-deployed warfighter system, proven in 70+ countries.

Logistics shouldn't take five systems

No single FedRAMP-authorized COTS product covers procurement, warehousing, transportation and personnel logistics. Agencies stitch tools together, re-key data and lose visibility at every hand-off. LOGI-MAN replaces that stack with one affordable platform.

WHY AGENCIES AND PRIMES CHOOSE LOGI-MAN

One operational picture

Agency, prime, integrators and warehouse work the same request record in real time, from request to close-out.

Right information, right role

Each user sees only what their workflow needs, compartmentalized by role, program and project.

AI built in

A native MCP server, natural-language requests and machine-learning cost estimates.

Zero-risk transition

Live on day one. Legacy requests close out in parallel while new work starts.

Full logistics lifecycle

Orders, warehouse, transport, travel & events, translation, reports and financials. [See the modules](#)

Live in under a week

Serverless, multi-tenant SaaS on Azure, AWS or Google Cloud, with one dedicated instance per customer.

Mission-ready, fast

Reconfigured for a COVID-19 task order 30 days before contract start, and for Ukraine surge funding.

Prime-ready licensing

Primes can license and brand LOGI-MAN under their own name and bring a government-accepted platform on day one.

PROVEN ON DTRA • 2019-2025

70+

countries supported

99.9%

system uptime

6 yrs

Exceptional CPARS, every period

0

compromises of government data

PAST PERFORMANCE • DTRA

DTRA's first cloud-deployed warfighter system

Item	Detail
Program	Threat Reduction Logistics Services (TRLs)
Agency	Defense Threat Reduction Agency (DTRA)
Contract	HDTRA118D0010 • TO HDTRA1-19-F-0019
Period	Jan 2019 – Jul 2025
Prime value	\$180M (Time & Materials)
MSS role	Key subcontractor. MSS designed, delivered and ran the system.

The government cited the platform in writing as a **significant factor** in the \$180M award.

MSS delivered the full system scope

- ◆ Design, development and 100+ system change requests
- ◆ Cloud hosting and system administration
- ◆ Cybersecurity, System Security Plan and ATO
- ◆ Training, help desk and account management

Also deployed on prime programs, 2022–2026

- ◆ U.S. Department of State NDF: Ukraine war support
- ◆ U.S. Coast Guard Foreign Military Sales (FMS)
- ◆ UN International Organization for Migration: refugee transportation
- ◆ Biosurveillance medical research program

SIX YEARS OF MEASURED RESULTS • FULL PROOF ON LOGI-MAN.COM

99.9%

Logistics accuracy (3,374 of 3,384)

44%

Cloud hosting cost cut, lower still on serverless

58

Maintenance windows, zero downtime

650+

Users trained; 1,624 help desk tickets resolved

“...performed all application and server updates/patches on schedule (Sundays) to maintain operational continuity, reduce security vulnerability, and provide system stability, as demonstrated by [LOGI-MAN]’s average of 99.9% up-time.”

DTRA TRLS CPARS • Exceptional, every period 2019–2025

SECURITY • DETAILS

- ◆ 213 NIST SP 800-53r5 controls; System Security Plan aligned to DoD RMF
- ◆ Validated by DTRA, DISA and a third-party assessor: “One of the best SSPs we have seen.”
- ◆ 0 compromises in six years • 0.14% defect rate

SERVERLESS PLATFORM

- ◆ Built on FedRAMP High–authorized cloud services
- ◆ No servers to hack; sysadmin hours cut by at least half
- ◆ Same design on AWS, Azure or Google Cloud; easy provider moves

WAYS TO WORK WITH US

Direct license

Agencies license LOGI-MAN as SaaS, with a dedicated instance in under a week.

Prime / sub teaming

Primes license and brand LOGI-MAN under their own name; MSS supports delivery.

Channel partner

Resell LOGI-MAN to government and commercial customers.
